Alternative Energy ETFs: The Top 10 Exchange Traded Funds for Investing in Alternative Energy

Unless you're an agoraphobic shut-in, you've probably noticed that gas prices have skyrocketed in the last few months. Alternative energy stocks are gaining in response to increasing oil prices as people look for cheaper fuel sources. We've identified some major exchange traded funds in alternative energy for you to keep watch closely whenever the next major energy news hits the market.
